

Greetings,

I would like to sign up for your program. It seems like an ideal opportunity to improve my skills and to enter a new environment.

I am a highly motivated person who is aiming to improve myself in the software engineering environment, as I am currently pursuing a Bachelor's degree in this field and I think your program will help me develop myself.

I generally get along very well with people since I have worked in environments that are mainly customer facing. In previous jobs such as barista, shop assistant, waitress were mainly in group positions which needed to work mainly tidy and organized and with good at keeping track and maintaining cleanliness and merchandise. Also these positions develop communication.

Thank you for your time.

Sincerely Roza Krumova
